## BOTTLED WATER & COOLERS

**Global Coffee carries 2 types of bottled water:**

**Purified Water:** Our purified water is water that has been purified with a thorough 10-stage process (involving reverse osmosis) to ensure that a clean-tasting, healthy product is created!

**Spring Water:** Our spring water is obtained from a private and protected source located in Coghlan, B.C. The spring water is lightly filtered then ozonated prior to being placed into our clean, sterile bottles.

Our Bottled Water Coolers are available in:

- Hot & Cold
- Cook (Room Temperature) & Cold
- Floor or countertop models

Cooler Facts:

- Air-cooled, bottle type water coolers
- Durable polyethylene cabinet
- Dishwasher safe drip tray
- Capacity of the cold water reservoir is 3.5 L
- Adjustable cold water thermostat
- Hot water tank dispenses thirty 6oz. cups per hour

## BOTTLELESS COOLERS

### Tired of dealing with heavy water bottles?

Enjoy all the chilled, filtered water you want at your office with our Point of Use Systems.

Our bottleless coolers are connected to an existing water supply using high quality filters that perform a multi-staged filtration process.

#### Benefits:

- NO more bottles to lift or deposits to worry about!
- NO delivery days to monitor or bottle storage requirements!
- Regularly scheduled filter replacement

## CUSTOMIZED FILTRATION SYSTEMS

### Multi-Staged Filtration Process

**Stage 1:** sediment filter to remove the majority of sediment, dirt, rust, glacial till, etc... to ensure the efficiency of the next stage.

**Stage 2:** carbon block filter to remove the majority of chlorine, taste and odor.

This water filtration system provides an immediate source of clean, pure water!

Also available customized filtration systems including Reverse Osmosis, Ultraviolet and distilled. Call or [email](mailto:info@globalcoffee.ca) for more information.

## ACCESSORIES & SERVICE

**Accessories:** Add any of the following to compliment your cooler: Cups, Cup Dispensers, Bottle Racks & Pumps.

**Service:** By putting the needs of our customers first, we have earned a reputation for unparalleled customer service. We provide scheduled on-site service visits, cooler sanitization & filter replacements.
